*\*As a result of FY2011 ADAP emergency funding, Alabama, Florida, Georgia, Idaho, Louisiana, Montana, North Carolina, South Carolina, Utah and Virginia were able to reduce the overall number of individuals on their waiting lists.*

*\*\*Louisiana has a capped enrollment on their program. This number represents their current unmet need.*

## ADAPs with Other Cost-containment Strategies: Financial Eligibility (instituted since September 2009, as of April 19, 2012)

Six ADAPs have previously lowered their financial eligibility as part of their cost-containment plans since September 2009. Illinois, North Dakota, Ohio and South Carolina lowered their eligibility level to 300 % FPL. Utah lowered their eligibility level to 250% FPL, and Arkansas lowered their eligibility level to 200% FPL. Previously, all states had FPLs of 400% and above. As a result of these measures, a total of 445 individuals in three states, Arkansas (99), Ohio (257), and Utah (89), were disenrolled. Illinois, North Dakota, and South Carolina grandfathered their clients that fell within the income levels into their programs. No other ADAPs currently anticipate further changes to their financial eligibility.
